Examiner's Statement of Reasons for Allowance

Allowance

1. The following is an Examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this case, is the inclusion of the limitation "a deformation body of deformable material on said carrier, fixed on said thickened end and positioned so that said constriction forms directly or indirectly a stop for said deformation body, said thickened end having surfaces exerting thrust on said deformation body in the direction of said constriction whereby, upon high loading of said element in case of a crush, said surfaces cause compressive deformation of said body enabling said body to take up kinetic energy of loading of said element" in the independent claim, in combination with the other recited limitations in claims supported by this application, which are not found in the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled

"Comments on Statement of Reasons for Allowance."
